Outline

Numerous business and government organizations in the countries of the region are considering eCommerce an important mechanism for processes efficiency & effectiveness improvement and trade facilitation. Since 2001, business and government executive meetings are sponsored in order to increase cooperation and accelerate a development of cross-border eCommerce in eRegion. Meetings are investigating opportunities of, and interest in, international research & development projects.

The meeting’s objectives:
• Motivating executives for e-technologies implementation and usage.
• Establishing contacts between business, informatics & logistics executives of participating organizations in the region.
• Creating a favourable climate for cross-border business & government cooperation in eCommerce development in the region.
• Indicating existing and anticipated governments’ related problems of cross-border eCommerce and presenting them to respective government agencies.
• Providing environment for business, government, and universities in the region to interact in identifying opportunities for collaboration and joint projects.
